MARCH 2025

How Data Modernization Paves a Path for App Modernization

The pace of cloud adoption continues to quicken as organizations transform IT environments to meet the demands of modern business. In Foundry's 2024 Cloud Computing study, 63% of respondents said their company has accelerated migration efforts over the last 12 months, and 70% said their organization now defaults to cloud-based services when upgrading or purchasing new technology capabilities.
