3 Guiding Principles for Building New SaaS Products on AWS

These are more what you'd call "guidelines" than actual rules, but they certainly can help you navigate the waters of building SaaS on AWS.

CASE STUDY: LEA

LEA BREATHES NEW LIFE INTO PROFESSIONAL AUDIO WITH SERVERLESS IOT

Professional audio powers much more than stadium concerts. It's behind the music that plays on loops in restaurants and theme parks, and the announcements about delayed flights and upcoming trains that cascade through airports and subway stations. The professional audio industry, composed of companies from Sony to Audio-Technica, **pushes six billion dollars a year in US sales alone!**
